

Invitation to Imagine: Open House!

Discover The CEA School

Students are equipped with skills of daily living including food prep!

School staff encourage students to develop and cultivate their personal interests for future work.

CEA offers unique support for students to step toward important goals.

At the CEA School we help students with disabilities imagine how they can build their futures to best fit their needs and goals.

Recently, one of our students attended [a Junior Achievement NJ event](#) where they were challenged to design a space reimagining office supplies as building materials.

In the same way, our school daily meets the challenge to design customized experiences for each student to support their interests and achieve their future goals

What might a customized program for your student's unique needs include?

- small student-to-teacher ratio
- inclusion classes
- integrated community experiences
- work skills training
- paid internships
- transition services
- dual enrollments
- unique out-of-classroom opportunities

Imagine *your* student's future and meet our staff at our upcoming Spring Open House!

The CEA School Open House

When

Thursday, May 4th, 10am-12pm

Where

301 Mt Airy-Harbourton Rd, Lambertville, NJ, USA

More information

RSVP by clicking below or contact Kara Nemeth, Lead Social Worker, at knemeth@cea-nj.org by 5/2. Can't make it this time? Plan your own in-person or virtual tour that fits your schedule.

Parent Testimonial

"Thanks to the amazingly kind and patient CEA team, the individualized support, and the practical approach, our son has made great strides towards attending college and becoming more independent." - Father of Student
