

How are we diving into ESY?

The CEA School News: June 2023

First, we're wrapping up the year with....

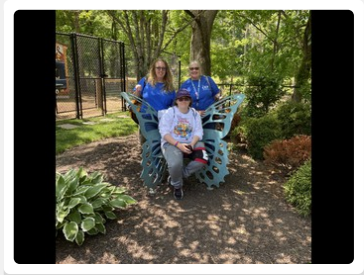

Celebrating!

A student received a certificate for completing the Central Sterile Technician 6 week Course at Mercer County Community College

Exploring!

A student explored the trades at the Construction Industry Career Expo at the NJ Convention Center

Adventuring!

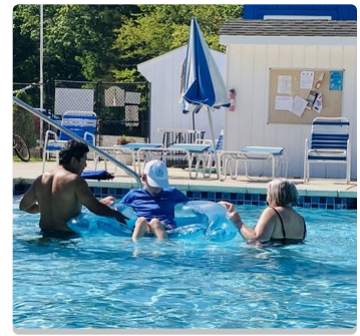

Students practiced social skills, navigated new environments, and demonstrated practical problem solving..... at the zoo.

Please send me info about your transition program

Community & Pool Time Make for a Great ESY Program!

This summer, students might be out of typical routines, but preparing for their future continues!

The ESY program will run July 5- Aug 8th from 8am-1pm. Students will engage in a mix of academics, transition activities, work in community settings, and the much anticipated pool time! The students look forward to preparing, purchasing, and packing for their picnic and bbq days.

You are welcome to visit our ESY program.

Visit us in the class or off-site to see the difference we could make for your student!

Visit CEA's ESY Program

Join us in the classroom, out in the community, or at the pool to chat with our principal and staff about student opportunities at The CEA School.
