

Chocolate & Community Partnerships

The CEA School News: May 2023

We Explore Community!

Adam from The Fudge Shoppe demonstrates community job options and brings new experiences and knowledge to students.

We Just Taste a Little ...

Students engage in the tastes, textures, and chocolate-making processes.

We Get Creative!

School staff encourage students to get creative with hands-on food prep experience.

Community Partners Help Students Taste Future Opportunities

Guests like Adam, [a 5th-generation chocolatier from the local Flemington Fudge Shoppe](#) help students get a "taste" of their futures. Hands-on exploration, student discussion, and guidance from CEA school staff are all a part of how we help students interact and integrate into the community.

We believe that being out in the community and inviting partners to the classroom helps our students develop the interests and skills necessary for successful transitions to adulthood.

Our guests and business partners are just one of the means by which we help students meet new people, explore potential interests, find meaningful work, explore creativity, and find pleasure in customized student experiences.

Visit The CEA School: Virtual or In Person!

 Facebook

Schedule a chat with our school social worker Kara Nemeth by clicking the button below and decide if a virtual or in-person visit would be best for you!
